

MACPAC FILMS LTD.

Pioneer of BOPP Films in Pakistan

Mission, Vision and Core Values

Vision

To be the market leader recognized locally and internationally as a premium quality manufacturer of multilayer packaging materials.

Mission

Our mission is to:

- gain the confidence of our stakeholders by earning a reputation of a responsible and progressive enterprise that is prepared to change for them,
- maintain the highest level of quality in the manufacture of our products, thereby adding value for all our stakeholders,
- focus on the changing customers' needs and requirements and strive to improve and innovate the product line for the benefit of our customers,
- be ethical in practice and fulfill our social responsibilities by contributing towards the environment as good corporate citizens.

Core Values

- ✓ **Accountability:** We believe accountability in our operations is fundamental to our business. Our actions are conducted in a responsible, timely and professional manner.
- ✓ **Passion:** Underlying our diligence and hard work is the core reason that we develop a passion in what we do.
- ✓ **Honesty:** All our business dealings are conducted in a transparent manner in line with our moral principles.
- ✓ **Quality:** Our product quality is a symbol of our excellence. Constant monitoring and stringent checks ensure we satisfy our customers in the best possible manner.
- ✓ **Innovation:** We believe in the ideology of innovating our offering not just for the betterment of our customers, but for the overarching aim of benefitting the industry as a whole.
- ✓ **Caring:** Our aim is to do business in a sustainable manner while contributing positively to the society as well.

Company Profile

About Us

Macpac Films Ltd is the pioneer of BOPP (biaxially-oriented polypropylene) films in the local manufacturing arena, offering its customers with the highest quality products. For more than two decades, the company has stood for quality in sealable and plain BOPP products, as well as metalized films. Our success is driven by our people and their commitment to get results the right way - by operating responsibly, executing with excellence, applying innovative technologies and capturing new opportunities for profitable growth. Today, our long-term relationships, embedded with trust and harmony, turn to us for their packaging solutions.

History

Founded and incorporated in 1993, Macpac Films Ltd is the brainchild of Mr. Maqbool Elahi Shaikh, who is considered to be the pioneer of BOPP film in Pakistan. His contributions to the plastic packaging film industry are recognized industry-wide. Our history is a part of who we are today. With an experience of more than two decades in the industry, we strive each day to grow our business and become the market leader.

Technology

We possess state-of-the-art equipment from Brückner, world's leading advanced packaging equipment manufacturer. Our highly skilled R&D and production teams ensure constant development and integration of the latest technology in our machines.

We also possess BOBST K5000 vacuum metalizer for metallization process.

BRÜCKNER

Quality

Our commitment to quality is a never-ending quest to find new and better ways to meet and exceed our customers' expectations. Our films conform to international standards of quality processes and involve biaxial orientation of films at high speeds. It is followed by Corona treatment which ensures excellent printability. During the production of films, focused attention on quality enables us to attain best capacity utilization, desired barrier properties along with tensile and sealing strengths tailored according to our customers' needs.

We are dedicated to achieve customer satisfaction through ISO 9001:2008 certification for continuous and innovative quality improvement. The continuous improvement philosophy behind our quality management system drives the improvement in our manufacturing and business processes to better meet the requirements of our customers.

Products and Applications

Macpac Films Ltd produces multiple grades of co-extruded BOPP films which conform to international standards of quality processes, involving biaxial orientation of films at high speeds. We focus on the following applications:

- Food (confectionery items, biscuits, snacks, tea, baked products)
- Labels (opaque and transparent)
- Other applications (overwrapping, textile bags, tobacco, decorative purposes, pharmaceutical items, adhesive tapes, etc.)

We are committed towards product quality leadership. To meet that commitment, the mission of its experts is to create value-added products for our valuable customers and provide them with innovative and effective solutions that allow them to succeed in their businesses.

Keeping in view the needs of our customers, transparent; matte; pearlized and metalized films are produced in different varieties and thicknesses, ranging from 10 to 40 microns. We also produce specialized films having unique characteristics to suit well in specialized applications.

The following grades of BOPP films are manufactured by us:

- Plain
- Heat-Sealable
- Overwrap
- Pearlized
- Pearl-White
- White
- Metalized
- Hologrammable
- Metalizable
- Biodegradable
- Plain (for sheet lamination)

We are proud to announce our new range of value-added films:

- High Barrier Metalized
- Broad Seal Metalized
- Pearl High-Yield
- Matte
- Medical Grade Overwrap

The most valuable property of our films is their versatility as packaging carriers. We carefully craft our films to ensure good barrier properties against moisture, gas and odor. Excellent optical properties distinguish our films from the rest. Trouble-free printing and high sealing strength make our products the first choice of converters.

Matte/Metalized

Metalized/Sealable/Pearl
