#### Assalam-o-Alaikum

Dear Members.

The Board of Directors of your Company is pleased to present the un-audited financial statement of the Company for the first quarter ended September 30, 2018

#### **Financial Reporting**

Your Company has recorded net sales of Rs. 430 million during the period under reviewed as compared to Rs. 477 million for the same period last year. The company has suffered loss during the period amounting to Rs. 44.2 million, as compared to profit of Rs. 19.4 million for the same period last year. Mainly due to decrease in sales in tonnage value in addition of higher purchase cost due to drastic weakness of rupee value and exchange loss.

Loss per share for the period under reviewed is Rs. 0.75 as compared to Earning per share of Rs. 0.46 during the same period last year.

#### **Future Outlook**

The economy faced a lot of issues both on macro and micro levels during the year under review. Uncertainty on political front, election year, increased debt burden, widened trade deficit and declining foreign reserves resulting in pressure on Pak Rupee etc. affected the long-term economic growth, business opportunities and overall sentiments of the economy. In addition to these factors, increased material prices and entrance of new competition also created numerous challenges for the industry and your company. US Dollar jumped from PKR 104/USD to over PKR 122/USD and even PKR 130/USD subsequent to the period. These overnight sudden devaluations created a lot of price risk and affected the overall business environment and the industry. However, your company managed to address all these issues and despite of all challenges overall volume and market share increased significantly giving company the momentum for further growth ahead.

New Cast Poly Propylene (CPP) plant has also arrived which will strengthen our competitive position and also increase the overall capacity by over 40 pct. In addition to this, your company also implemented the strategies to increase efficiencies, target new market segments, increase investments in research and development and is confident that with all these measures we are on our right track and will achieve the overall all expectation of our valuable shareholders. In Sha Allah.

We are confident that your Company has the potential to sustain all challenges by maintaining its position in the market and keeping the current focus of efficiencies and optimization

#### **Acknowledgement**

The Directors of the Company would like to take the opportunity to thank the Securities and Exchange Commission of Pakistan, Shareholders, Partners, Customers, Government Authorities, Autonomous bodies, Financial Institutions and Bankers for their co-operation & continued support.

The Directors are also pleased to record their appreciation of the valuable and untiring efforts and services rendered by the staff of the Company.
