PSX: MACFL

INTRODUCTION

Macpac Films Ltd is Pakistan's pioneer of BOPP & CPP films, and a leader in the field in sealable, plain, and value-added films for over three decades. Our work is seamlessly woven into the lives of everyday people, in invisible yet vital ways. From confectionery and snacks to lifesaving medication, we help make products everywhere safe and durable through affordable film-based packaging. It is this ubiquity that makes us the nation's favorite and most advanced packaging manufacturer.

This achievement is a credit to our talented team's commitment to success through innovation, as well as our ethos of responsibility and excellence in execution. These are also the factors that have imbued our long-term client relationships trust and stability and allowed us to create new avenues of sustainable profitability.

VISION

To be the market leader recognized locally and internationally as a premium quality manufacturer of multilayered packaging materials.

FOUNDER OF MACPAC

THE ORIGIN

Founded in 1993, Macpac Films Ltd. is the brainchild of Mr. Maqbool Elahi Shaikh, widely considered to be the forerunner of BOPP and CPP production excellence in Pakistan. A true pioneer in the field, his contributions to the plastic packaging film industry are unparalleled and acknowledged throughout.

Even today, we as a company reflect his vision, built on a legacy of know-how, top technology, and a relentless drive to achieve growth backed only by excellence.

WHAT MAKES US MACPAC

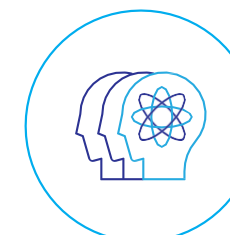

MACPAC is more than just a leading manufacturer of BOPP and CPP films in Pakistan. Our biggest assets are our team and our age-old relationships with our priceless customers, which are based on a foundation of reliability and consistency. For almost 30 years, customers have trusted us to deliver on the promise of quality and we have never let them down. Thanks to our 360 degrees automated, high-performance plants, our aim for minimum wastage, and our constant drive for the expertise and better technology, we give clients the quality they have come to expect from us at competitive prices.

Mr. Muhammad Omer Sabir, is an Independent director. He has diversified experience of corporate affairs and was elected for the board of directors on October 27, 2018.

MLESTONES & ACHIEVEMENTS

BIAXIALLY ORIENTED POLYPROPYLENE (BOPP) FILMS

Macpac specializes to produces both co-extruded multiple grades of quality processes, involving biaxial orientation of the films at high speed. Our aim is therefore total quality leadership to provide customers the absolute best in the packing films, be they Transparent, Matte, Pearlized, or Metallized (Ranging from 10 to 60 microns)

WE EXCEL IN PRODUCING THE FOLLOWING GRADES:

- PLAIN
- OVERWRAP
- PEARL WHITE FOR LABELS
- SEALABLE
- METALIZED
- PEARL WHITE OPAQUE
- BIODEGRADABLE BOPP
- MATTE
- PEARLIZED
- HOLOGRAMABLE
- METALLIZABLE
- SHEET LAMINATION
- HIGH SLIP SUITABLE FOR PRINTING AND LAMINATION

PRODUCT ATTRIBUTES

OUR PRODUCTS ARE IDEAL FOR:

- Food: Confectionery, biscuits, cookies, snacks, tea, baked products
- Labels: Opaque and transparent
- Other Applications: Overwrapping, textile bags, tobacco, decorative purpose, pharmaceutical items, adhesive tapes, etc.

The most valuable property of our film is its versatility as a packaging carrier: We carefully craft our films to ensure good barrier properties against moisture, gas, and odors. Excellent optical properties distinguish our films from the rest. Trouble-free printing and sealability make our products, the first choice of converters:

- Excellent Optic (High Gloss & Clarity)
- Good Barrier to Water Vapor
- Improved Stiffness
- Excellent Performance on High Speed Machines
- Good Dimension Stability and Flatness
- Good Scuff Resistance and Great Acid Resistance
- Excellent resistance to UV light
- High Tensile Strength
- Good puncture and flex-crack resistance over a wide range of temperatures
- Biodegradable
- Low Electrostatic Charge
- Excellent Chemical and Abrasion Resistance
- Recyclable and Reusable
- Not affected by moisture and does not wrinkle or shrink with environmental changes

PRODUCT LINE

Our mainstay product is clear, non-heat sealable film, with either one or both sides corona treated.

PLAIN BOPP FILMS

Clear, non-heat sealable, with either or both sides corona-treated, this film is widely used for industrial purposes such as Printing, Lamination, Bag Making for shirts & Imitation jewelry as well as pressure-sensitive tape.

PLAIN FILM IS AVAILABLE IN 10, 18, 20, 25, 30 & 40 MICRONS, HAVING FOLLOWING KEY FEATURES:

- Good gloss & transparency with low haze
- Low static charge, excellent machinability
- Good printing effect, modified adhesion for lamination with corona-treated
- FDA compliant for contact with food and beverage

WHITE FILMS

Co-extruded, heat sealable, and corona-treated film, used for labeling purposes.

Available in 18 to 40 micron with White Opaque, Pearlized and Pearl White (labeling), having the following key features:

- BOTH SIDE SEALABLE AND ONE SIDE TREATED
- CO-EXTRUDED FILM

Applications:

- Printing & Lamination
- Food Packaging
- General Overlapping

Key Features:

- Good Printability
- High Seal Strength
- High Tensile Strength and Stiffness
- Consistent Slip
- High Opacity and Bright Whiteness

PEARLIZED FILM

This is a co-extruded, both sides heat sealable, one side corona-treated film. It is suitable for high-quality printing and is widely used as a packaging material for processed food, tea, ice cream bars, soft drink labels, candies, and gift wrappers.

IT IS AVAILABLE IN 25, 30 & 38 MICRONS, HAVING FOLLOWING KEY FEATURES:

- High whiteness and outstanding pearlizing performance
- Outstanding cold adhesive strength
- Excellent tensile strength, moderate & stable density
- High resistance against fragrant & light

BOPP METALLIZED FILM

This is a co-extruded, one side heat sealable, and one side metalized film, generally used as general packaging application for chips, cookies, snacks, coffee, biscuits, confectionery, etc.

AVAILABLE IN 18, 20, 25 TO 40 MICRONS, IT HAS THE FOLLOWING KEY

- Excellent metal adhesion & luster
- Good light & oxygen barrier
- Excellent thermal dimensional stability
- Excellent seal Integrity
- Confectionery, Snacks & Chips
- Biscuits & cookies

MATTE BOPP FILM

This is a non-sealable, one-sided corona-treated film, widely used for printing & lamination for book covers, brochures, gift bags, tea & chewing gum.

MATTE FILM IS AVAILABLE IN 15 MICRONS ONWARDS, AND HAS THE

FOLLOWING KEY FEATURES:

- Matte-finish, good contact clarity, elegant surface
- Good printing effect
- Low static charge, excellent machinability

CAST POLYPROPYLENE (CPP) FILMS

Designed to offer high performance, great aesthetics, and easy transformability for flexible packaging and other applications.

CPP is a mono-oriented film based on polypropylene polymers.

Therefore, it offers excellent sealability and transparency for subsequent printing or lamination. It also offers minimal gauge variation and a low gel level for better metalizing. Selling

following grades from 20-40 micron:

- **TRANSPARENT**
- **METALIZED**
- **OPAQUE/MILKY**
- **OTHER SPECIALIZED FILMS**

Key Features:

- High Clarity, Smoothness and Gloss
- Higher seal strength
- Good hot tack strength
- Good anchoring of inks and adhesive to Treated Surface
- Good machinability on Packaging line
- Resistance to grease and oil
- Excellent resistance to UV light
- Good resistance to tears & puncture
- Good moisture barrier
- Low static properties
- Can be metal processing
- Higher than the PE film stiffness
- Recyclable and Reusable
- Multi-functional, composite materials can be used as the base film.

CPP – LAMINATION TRANSPARENT FILM

This is a co-extruded film, and is heat sealable on both sides, corona-treated (on one side), and is widely used in segments such as printing and lamination, snacks, confectionery, etc.

Available in 20, 25, 30 & 40 microns.

- EXCELLENT OPTICS
- EXCELLENT MACHINEABILITY
- CONSISTENT SLIP
- EXCELLENT SEAL INTEGRITY

CPP WHITE OPAQUE FILM

This is a co-extruded film and is heat sealable on both sides, corona-treated (on one side) It is suitable for printing and lamination and is being widely used as a packaging material for confectionary/food items.

It is available in 20, 25, 30 & 40 microns, it has the following key features:

- **HIGH WHITENESS AND OUTSTANDING PERFORMANCE**
- **EXCELLENT SEAL INTEGRITY**
- **EXCELLENT MACHINEABILITY**
- **HIGH RESISTANCE AGAINST ODOURS & LIGHT**

CPP METALLIZED FILM

This is a co-extruded film and is heat sealable on both sides, corona-treated (on one side) It is suitable for printing and lamination and can be used as packaging material for confectionery, snacks/chips as well as tea and coffee.

It is available in 20, 25, 30 & 40 Microns and has the following key features:

- EXCELLENT METAL ADHESION AND LUSTER
- GOOD LIGHT AND OXYGEN BARRIER
- EXCELLENT THERMAL DIMENSIONAL STABILITY
- EXCELLENT SEAL INTEGRITY

CORPORATE SOCIAL RESPONSIBILITY AND SUSTAINABILITY

At MACPAC, one of our founding tenets is that of responsibility, be it to our customers, our shareholders, or society at large: That's why when it comes to serving those around us, we go above and beyond, and our credibility stands on its merit.

GIVING BACK

The goal of our CSR is to embrace responsibility for the Company's actions and create a positive impact through its activities on the environment, employees, and communities. Therefore, we are significant contributors to help those in need through the patronage of a variety of deserving organizations including Shaukat Khanum Hospital, The Citizens Foundation, Heart Care Society, Civil Hospital, etc., and various educational organizations.

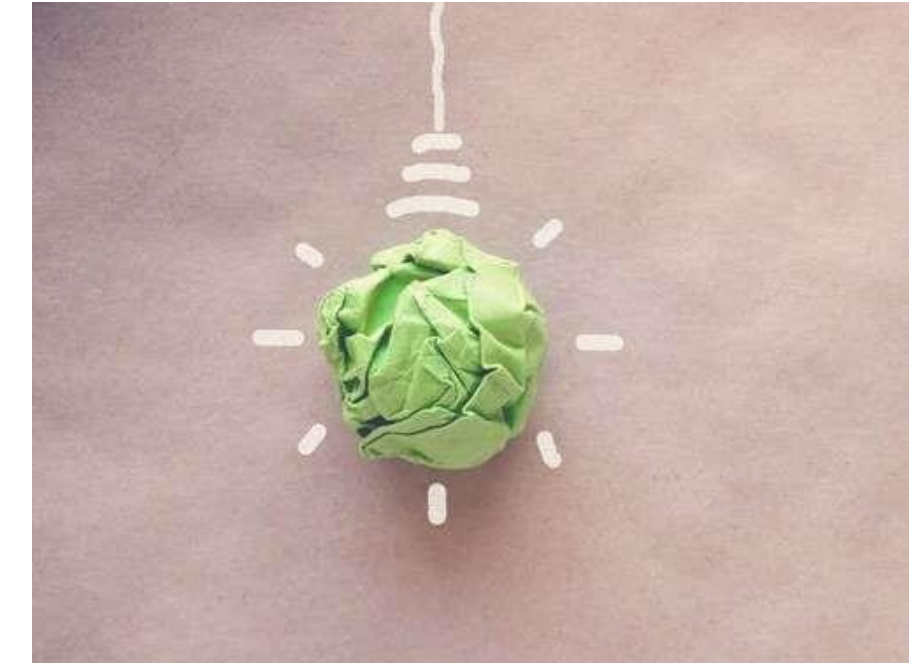

HUMAN RESOURCE DEVELOPMENT

We believe that the key to working together as a unified force is at the heart of driving the Company towards success. Every member of the Macpac family believes strongly in the vision and core values of the business. As a result, by keeping the highest standards of ethics and integrity at the forefront, we are committed to providing our employees a stable and dynamic work environment with equal opportunity for learning and personal growth. Our continued success depends on every employee, from the back-end to the front office. Due to their relentless pursuit of excellence and commitment to high standards, our team helped translate the Company's growth into substantial accomplishment over the years.

SAFETY AND HEALTH

We are committed to the health and safety of our employees, subcontractors, customers, and the general public. We are also dedicated to safeguarding our natural environment. Our health, safety, and environmental objectives are equal in status to our other business activities. Regular workshops and training are conducted to educate our employees about the same.

SUSTAINABILITY

Water-Saving: Through a combination of capital investment and employee training, we have successfully reduced water consumption by approximately 1 million gallons per year. We believe firmly in reducing our water and carbon footprint and are doing our utmost by implementing efficient systems and recovery of boring water by building a reverse osmosis plant in the upcoming year.

OUR NETWORK

The registered office of the company is situated at plot # 21, Maqboolabad, Jinnah Cooperative Housing Society (J.C.H.S), Tipu Sultan Road, Karachi, the production plants are located at Eastern Industrial Zone, Port Qasim, Karachi, and North Sales office is situated at Lahore Center, Gulberg Lahore Pakistan.

OUR JOINT HAND WITH TCF

The Macpac Films Ltd (MACFL) joins hands with The Citizens Foundations (TCF) in the field of education. The MoU was signed by Mr. Najm-Ul-Hassan (CEO – MACFL) & Syed Asaad Ayub Ahmad (President and CEO – TCF)
